EXPERIENCE

PlayVIG, Las Vegas — Software Developer

May 2019 - January 2020

Created and maintained user-interface screens for the use of tracking game data implementing Javascript(JQuery).

Created and maintained a tutorial feature for the client that walked new users through on how to use the application

Gathered stats using API integrated with python to translate the players action's in-game to the client and provide the needed feedback.

Worked with fellow employees to create and maintain a social page that allows users to interact with the social team and keep up to date with the latest news

Worked remotely from home using company VPN and using merge tools (SVN, Git) to upload projects

Provided support for WordPress site.

PlayVIG, Las Vegas — QA Tester

September 2017 - May 2019

Tested the latest build from current weeks development push

Reported current bugs found in the latest development push

Provided detailed descriptions of issues and put together reproduction steps for the development team

Wrote and submitted Jira tickets to the development team using the detailed reports written containing the issues and the reproduction steps.
